Demand heterogeneity and marginal costs

Parameter	Value	Standard error
Mean utility (beta 0)	1.0129	0.0276
Price coefficient (beta p)	-1.1999	0.0139
Mean taste for the product attribute (beta x)	0.5903	0.0077
Taste dispersion (sigma x)	0.6265	0.0740
Marginal-cost intercept	1.4016	0.0098
Cost-shifter coefficient	0.3026	0.0032

Joint demand and supply GMM; 80 markets and 320 product observations. All six displayed parameters are estimated.
